Innovative Research Methods

Innovative Research Methods is a community-based space for exploring new and creative ways of conducting, displaying and utilising academic research. Master's or Bachelor's students are encouraged to share their visual and digital research projects, discuss with peers and get new ideas for developing their research. The platform also combines best practices of other disciplines, working towards a skills hub.

Researching Africa in the 21st Century 2021-2022

Contextualizing the Media Lab

- Research is:
 - Multi and trans-disciplinary
 - Digital
 - Multi-media
 - Multivocal

- Opening up of possibilities
- The practice of research
