

These are the funded Kiem projects 2024

As the number of applications far exceeded the number of available grants (91 applications for 25 available grants), a festive draw took place on Thursday 27 June 2024, after a criteria check, to which all applicants were invited.

The following Kiem teams will receive a seed grant of up to €10,000:

Main applicant	Title of project	Collaborating faculties
Dunja Wackers	"That's precisely not how quantum works" – On the reception of metaphors on quantum science and technology	FWN & FGW
Jelle Brands	'A crystal ball'?: Piloting a product to test the effects of future urban interventions on safety perception.	FdR & LLInC
Sanne Willems	Communicating uncertainty – an interdisciplinary perspective	FSW & FWN
Menno Hoekstra	Proteoglycaan 4 als target in inflammatoire condities: uitbreiding van het therapeutische spectrum van cardiovasculaire aandoeningen naar reumatoïde artritis	FWN & LUMC
Madeline Kavanagh	Covalently activating autophagy to develop novel host-direct antibiotics	FWN & LUMC
Malte Riemann	"Creating Visions of Future War"	FGGA & FGW
Bob Siegerink	Stepping outside of academia: scientific integrity in the Dutch Legal system and news media	LUMC & FdR
Wiebe Ruijtenberg	Making up Migrants / Disabled: The pasts, presents, and futures of human classifying	FdR, FGW & FSW
Erik de Maaker	Networking Heritage at Leiden University	FSW, FGW & SAZ
